

2024 **OXIGENESIS** PRODUCT OFFERINGS

INSPIRED BY SCIENCE. POWERED BY OXYGEN.

What makes Oxigenesis the leading developer and manufacturer of oxygen-enhanced nutritionals?

First, our ingredients. All of our materials are sourced here in the U.S.A. from vetted suppliers, and processed in state-of-the-art labs using the highest industry standards. We select the purest raw ingredients for our formulations, which we verify and quality test at our in-house lab.

Second, our products. Oxigenesis has earned global recognition for its pioneering products in the consumer health and cosmetic industries. The proprietary technology behind our flagship product, ASO[®], is unique to the market and is the first of its kind to undergo published clinical testing.

Lastly, our service. For almost 30 years, companies have relied on Oxigenesis for in-depth formulation knowledge, manufacturing know-how and packaging expertise. We provide a flexible, bespoke service with all the elements you need to take your business to the next level, whether you're a boutique start-up or a multinational distributor.

LIVING MINERALS™

MULTIMINERAL COMPLEX

Plant-Sourced Mineral Concentrate

LIVING MINERALS™ liquid mineral concentrates are derived from prehistoric plant deposits and are minimally processed to ensure they are superior in purity and bioavailability. Plant-sourced minerals are the only kind that are completely bioactive, meaning they can be fully absorbed and integrated by the human body.

LIVING MINERALS™ MULTIMINERAL COMPLEX contains naturally-occurring fulvic acid and a complete spectrum of 78 essential and trace elements, electrolytes, and amino acids.† One of the most chemically active compounds in nature, fulvic acid is a powerful antioxidant that helps neutralize harmful toxins as well as improve the absorption of minerals in the cells.*
